

# AIRWAY ANATOMY FORUM

Santa Clara, CA

OCTOBER  
24 - 25, 2025

2025  
EXHIBITOR  
PROSPECTUS

# Join Us!

In 1922, New York physician Samuel Adams Cohen, published “Malocclusion and Its Far-reaching Effects” in the Journal of the American Medical Association. In that article, Dr. Cohen states: “Thus, the physician, in conjunction with the rhinologist and the orthodontist, is directly concerned in the treatment of every case of malocclusion”. Although Dr. Cohen was onto this critical concept of dentistry and medicine working together to optimize breathing, he was so far ahead of his time that his novel concept did not gain traction. Over a century later, we humbly ask for your support of the Airway Anatomy Forum, which, in the spirit of Dr. Cohen, will bring doctors from dentistry and medicine together to explore:

- 1) How to diagnose airway obstruction
- 2) How to improve airway anatomy to optimize breathing through nasal procedures, dentofacial orthopedics, and orthognathic surgery

Your support would be greatly appreciated and have a lasting impact as every clinician in attendance will learn how to help patients in their community breathe better.

Thank you for considering partnering with the AACCP in support of the Airway Anatomy Forum.
