

Dr. Turner is the founder of Vine Medical Associates. Double Board Certified in Family Medicine and AntiAging and Regenerative Medicine, her thriving practice treats rare and unusual diseases in patients from around the world. Practicing Functional Medicine, Dr. Turner has special interests and experience in bioidentical hormone therapy, metabolic medicine, neurodegenerative disease, and human performance optimization. She also has earned Advanced Certification in Endocrinology and Peptide Therapy. Dr Turner is the leading expert in peptide therapy in the Southeast. Among her many accomplishments, Dr. Turner served our troops as a physician in the U.S. Navy for several years. Prior to her tour of duty, she did an internship in general surgery, then completed her residency at Emory University. Dr. Turner is an award-winning teacher of medical students and physicians on the Faculty of Emory University, A4M, IPS, and ACAM. She has been featured on several podcasts including Super Human Ratio Network, TRT Revolution, Relentless Vitality, Yunique Medical, and Health Matters. She spends her free time managing her urban farm and cooking, building, reading, and exercising with her husband Chip, their 3 daughters, and 4.5 grandchildren.
